

# Language Arts Artifact: Egyptian Children's Book

## 1 Anus.....

Now that we are almost finished with our studies of Ancient Egypt, you will take everything you have learned and use that information to help you create your own children's book.

You should begin by researching images that you can use in your book, although you may not "copy and paste" anything from the Internet into your book.

You may want to look at samples of children's books for inspiration as to the format of this type of book. Samples from the public library will be available in Mrs. Merkel's room for you to look at during this time.

All work for this book will be done by hand. Your book will be ten pages in length, plus the front cover. You will show me your rough draft before you can start your final copy.

You may choose from the following types of books:

- I. Egyptian counting story book  
(numbers 1-10)
- II. Write your own children's picture book about Egypt

## 2 Pyramids.....
