

## Social Studies: Ancient Egypt Presentation

So you're not feeling very "artsy" and would still like to try your hand at an amazing project. You *could* create a PowerPoint presentation on Ancient Egypt and share it with the class.

Your presentation needs to include 10 slides

1. Your "cover" slide, complete with an interesting title, your name, and a picture.
2. 8 more slides with interesting information about ancient Egypt. That is a pretty broad topic, so you will need to narrow it down a bit. Maybe you would like to talk about mummification, how pyramids were built and what they are like on the inside, King Tut, or hieroglyphics. There are so many things to choose from – you decide what most interests you.
3. Your last slide must have your sources on it. Where you found your information and your pictures. Remember, Google Images is not the site...it's a search engine!
4. You need to make sure you have at least one picture on **every** slide.
5. Then present it to the class!
